Forecast for Monday 17 Apr 2023

Weather: Rather cloudy with occasional patchy light rain or drizzle, mainly focused from Glenshee southwards. Northern most ranges staying mostly dry with occasional brighter spells increasing for the afternoon, however here this may bubble up the odd isolated light afternoon shower.

Chance of cloud-free hill tops above 800m: Ranging from 70-80% in far north and 20% or less in south.

Low Cloud and visibility: Good or very good becoming moderate or poor in rain and drizzle and any showers, very poor within cloud with bases quite extensive above 600m in south and central areas, infrequently so in far north.
